

Forest Approach **News**

limeacademyforestapproach.london

Message from the Head teacher:

Another busy week at Forest Approach.

It is lovely to hear about the students joining in the virtual lessons provided by the teachers during their time at home.

We had OFSTED visiting earlier in the week. This was part of their discussions with schools, regarding managing the return to full education for pupils, after lockdown. We were able to share examples of the fantastic work that pupils completed, with your support, whilst learning from home. We will be sharing more information shortly.

Please also keep checking the website and google classroom for online resources.

Have a wonderful weekend.

Stay Safe

Mary Bickmore

Breast Cancer Awareness

Wear it pink day will be Friday 23rd October

More information to follow!

Message from the Deputy Head:

Dear All,

I hope that you are all keeping safe and well, as London moves into a new 'Tier 2' High category this evening. We can all help to prevent the spread of the virus by following the guidance which can be viewed at the Havering Website via the link below

<https://www.havering.gov.uk/covid19>

I'm looking forward to a busy week next week.

We can then all can enjoy a well-deserved Half term break from the 26th October.

Have a great weekend... and remember hands, face, space!

Laura Clements

Pine Class Virtual Lesson

Here is a story that Pine Class created in their virtual google meeting. Created by asking everyone to say a word / words to build the story, taking it in turns.

There was a fantastic turn out with 7/11 students were involved.

The green field was full of sea animals, trees and plants. The animals were playing in the field. The farmer comes along and gives the animals some food, but the food ran away. The animals chased after the food. The food turned out to be grass. The animals were sad. The farmer got different food for them to eat but the different food turned out to be from Mars. On Mars there are cows and sheep who came from behind a crater dancing and singing and wearing clown costumes. They are building houses for the sheep and the cats. But the aliens go to the house and they have a big party. They have some food and some alien goo to

drink. After the party, they have a little rest and sleep. They get an alien cold which is much worse than a human cold because a sneeze sends an alien to the other side of the planet. They then went to sleep. When they woke up they drove their big bicycle with one wheel at the top. The bicycle was fast and they went to their pen to see their mummies. Just as they were about to get home they saw their mum getting into a spaceship heading back to Mars. The aliens got there just in time using their rocket boots. The spaceship took them back to the big green field which magically showed long grass on Mars.
The End.

Well done Pine Class!

Linden Class

This week in class we have been using vegetables, instead of paint brushes, to paint with. Lots of the pupils had fun discovering the different patterns with vegetables made. Especially when rolling the sweetcorn.

Black History Month

Acorn Class Pictures

This week Acorn class has been trying different foods from different cultures. We have spoken about our differences and our likes and dislikes. During art we looked at Alma Thomas and her wonderful artwork. We also created our own. All to celebrate black history month.

Poppy Day 11th November

We will have Poppies available for a donation.

More information coming soon.

Evidence for Learning

Please keep using Evidence for Learning it is a great form of communication, especially for the children who are home learning during this time away from school.

If you have problems logging in or have forgotten your password, please tell the class teacher or contact the office.

Many thanks.

Hands, Face, Space

When dropping off and collecting your child from school, please ensure that you maintain a 1m+ distance from others and we ask that you do not stand in a group of larger than six people.

Thank you for your support in helping us to prevent the spread of the Coronavirus.
